

Writing a perfect essay step by step (an example)

Composition 1 - an academic essay (opinion):

Problem: Some people state that we need to invest money in space exploration, while others claim that it is a waste of money and efforts

Paragraph 1 - Intro: (Hook, Nowadays situation)

1. **(What is the situation concerning space exploration nowadays?)** **Hook:** *Nowadays we have been observing a huge technological breakthrough in each sector of our lives for the last decades.*
2. **(Explanation)** *That major leap has been done largely due to the space exploration, that is extremely beneficial for advanced technology and progress despite the high price.*

Paragraph 2 – Personal Opinion+ Reasons with explanation

1. **(State your opinion on the basis of hook)** *Personally, I am positive that humanity should keep at investing money in space experiments to get ahead and advance the quality of our lives.*
2. **(State the first reason)** *Firstly, as a result of investment in space exploration we have got a lot of inventions which have made our existing (living) much more comfortable.*
3. **(Develop your proof)** *For instance, it is impossible to imagine our daily routine not only without Internet access, navigation system and mobile connection, but also without water filters, contact lenses, a lot of training equipment, insulin pump, aerospace thermo system for planes, solar panels and a lot of other innovations.*
4. **(State your 2 reason)** *Moreover, scientists have been looking into the problem of shortage pure water and natural resources on our planet.*
5. **(Proof your reason)** *They have found out really much about new elements, minerals, and physics laws, and even have eventually learnt more about ourselves.*

Paragraph 3 – Opposite Opinion and Reasons

1. **(Show the opposite opinion and give opposite reasons)** *On the other hand, space exploration is often criticized by opponents due to some reasons.*
2. **To start with,** *people claim that space experiments are not worth the money that is invested, especially while poverty still exists in many parts of the world.*
3. **Furthermore,** *nobody can definitely say if investments are useful and what are the consequences.*

Paragraph 4 – Explain, why you don't agree with opponents' opinion

Nevertheless, I consider that space exploration will allow us to establish a human civilization on another planet as a protection against the catastrophe that might occur on the Earth.

Paragraph 5 – Conclusion

1. **(Restate the nowadays situation) *To conclude, I am eager to state that space exploration satisfies (meets) the vital human needs concerning safety and further development.***
2. **(Restate your opinion) *Consequently, we should continue investing our funds in investigation and exploration of the Universe.***
